

# Discovery Program Survey

We enjoy having students take part in the Discovery Program. The Children's Discovery Museum is committed to making programs as hands on and interactive as possible to enhance the school curriculum. We strive to follow the interactive model where by young children learn through hands on activities and play. Your input means a lot to us and will provide valuable information for future program planning.

Name:	E-mail:
School:	Date of Visit: <span style="float: right;">AM PM</span>

Please comment on the structured Discovery Program you experienced and our Program Leader.

- |                  |             |                    |                       |
|------------------|-------------|--------------------|-----------------------|
| Was it:          | long enough | too long           | not long enough?      |
| Was it hands on: | enough      |                    | not enough hands on?  |
| Was it directed: | enough      | too much direction | not enough direction? |
| Was the content: | appropriate | too advanced       | not at grade level?   |

What would you like to see changed?

What could be done to make the Program fit closer to the school curriculum?

What did you like about the program leader? What should the program leader improve?

Comments & Suggestions:

**Thank you for taking the time to complete this survey!  
Your feedback is greatly appreciated!**
